

SYNONYMIC NOTES ON A RECENT CATALOGUE OF  
CICADIDAE IN THE SOUTH AUSTRALIAN MUSEUM.

By HOWARD ASHTON.

(Communicated by A. M. Lea.)

[Read April 8, 1915.]

Amongst the species described in my recent Catalogue of the Cicadidae of the South Australian Museum<sup>(1)</sup> are several from Cue, Western Australia, collected by H. W. Brown. In respect to some of these, I find I have been forestalled by Mr. W. L. Distant in the Magazine of Natural History (xii., 1913). The following are the synonyms:—

ABRICTA NOCTUA, Dist., Mag. Nat. Hist., xii., 1913, p. 487.

*Abrieta rufonigra*, Ashton, Proc. Roy. Soc., S.A., xxxviii., 1914, p. 349, pl. xvii., figs. 6, 6a, 6b.

KOBONGA FROGGATTI, Dist., Mag. Nat. Hist., xii., 1913, p. 490.

*Kobonga castanea*, Ashton, Proc. Roy. Soc., S.A., xxxviii., 1914, p. 351, p. xvii., figs. 5, 5a.

MELAMPSALTA CUENSIS, Dist., Mag. Nat. Hist., xii., 1913, p. 489.

*Melampsalta hermannsburgensis*, Dist., Ashton, Proc. Roy. Soc., S.A., xxxviii., 1914, p. 354 (*nec. Dist.*).

ERRATUM.

Ashton, Proc. Roy. Soc., S.A., xxxviii., 1914, p. 354, for M. SUBGLUSA read M. SUBGULOSA.
